

**INSTRUCTOR:**  
Michael Craig Gipe  
CSP, CHST

Mr. Gipe has held the position of owner at Safety Craig Consulting, Inc since 2001. He acts as a safety representative for several construction companies where he assists with policy implementation, trains and educates workers and management, and conducts work place audits. He is an OSHA Authorized Outreach Trainer.

## Free Scaffolding Safety Classes

**Pickerington**

9.18 – 9.19.2019

**Lima/OSU**

9.25 – 9.26.2019

**Cleveland - IWU**

3.24 – 3.25.2020

Do you work with or around scaffolding? Are you expected to set-up, use, or dismantle scaffolding at your jobsite? Does your company rent or own aerial lifts to use with certain projects? Would you like some hands-on experience with guided instruction driving an aerial lift or setting-up a small demo worksite using scaffolding? Well, this is the class for you! **Real world hands-on training with an aerial lift and scaffolding provided.** Attendees will learn:

- Essentials of safe scaffolding operations
- Specific safety requirements for particular types of scaffolds
- Proper installation and usage of scaffolding
- Specific safety requirements for aerial and scissor lifts
